Emotions

Mel Tillis

Emetions what are you doin' oh don't you know you'll be my ruin
You've got me crying crying again when will you let this heartache end
Emotions you get me upset make me remember what I won't to forget
I've been so lonely lonely too long emotions please leave me alone
You worry my days you torture my nights never a dream turns out right
Emotions give me a break let me forget that I made a mistake
Oh can't you see what you're doing to me emotions please set me free
You worry my days...
(Set me free)
