

# Not Dead Yet

## Raise Hell

When I feel your body next to mine  
I feel so fucking fine  
When I touch you, when I feel your heat  
Then I can't wait until we start the beat Can you feel it to my treasure  
If you do give me pleasure Isn't it the best if we do like this  
Give each other something more than a kiss  
Isn't it the best when it's like this Once we've started this there is not stop  
Come on now let us reach the top  
Keep on going like you do  
I know you like it to Can you feel it to my treasure  
If you do give me pleasure I will use my most powerful spell  
To put you in the hands of hell  
I know your most sensitive spots  
And you will never get rid of my powerful touch Isn't it the best if we do like this  
Give each other something more than a kiss  
Isn't it the best when it's like this
