

# In The Drugs

## Low

I was a child, I was on fire  
But I stayed alive while all else died  
I held my breath, what could I say?  
And I closed my eyes like Marvin Gaye  
But now I've had enough It's in the drugs  
It's in the drugs It's in the drugs, ahh  
It's in the drugs You had your plan, a heavy hand  
But the weight was more than you could stand  
Breaking like dolls, singing like birds  
We always get what we deserve  
But now I've had enough It's in the drugs  
It's in the drug
