## Nickelback

Bribing me, we come, we watched how  
We're last to throw our pennies  
A passive tramps lifts her skirt  
And asks us then we throw them down to her And I know why I will always follow you  
Anywhere my brother leads me to We don't want to live in the sun  
Just to keep them happy for awhile  
Midnight, and Frank freaks out  
And reaches God and fairly tied up too But I know why I will always follow you  
Anywhere my brother leads me to  
And I remember wanting to be you  
And pray to God that we would all pull through 'Cause I know why I will always follow you  
If you're my brother then I will follow you Lifelong friends threw bottle ends  
And yell in the air like lifelong enemies  
Who's stronger, who's lived longer?  
World quarrels and grand kids on your knee 'Cause I know I will always follow  
Anywhere my brother leads me to  
And I remember wanting to be you  
And pray to God that we would all pull through 'Cause I know why I will always follow you  
If you're my brother, then I will follow you 'Cause I know why I will always follow  
I will follow you and I will  
I know why I will always follow  
I will follow you and I will
