

# Not a Shot

## Stars In Stereo

Stone cold  
Not a thought for who I hurt  
No patience left to share  
I know  
If I stay in here I may forget I ever cared  
Who am I  
Without the touch of skin to make me feel like I exist  
I am lost  
Inside a time without a reason to feel happiness  
Say goodbye to your hell  
Be alive and be well  
Take a drink to your health  
Not a shot with a gun to yourself  
Step back  
Keep your distance if you want to keep your innocence  
Think fast  
In the darkness there's no telling if I'll find an end  
In your eyes  
I see fear that never dies until it kills the truth  
Look behind  
Don't you remember when a life meant being free to choose  
Say goodbye to your hell  
Be alive and be well  
Take a drink to your health  
Not a shot with a gun to yourself  
Not a shot  
Not a shot  
Not a shot  
Not a shot (shot, shot)  
Say goodbye to your hell  
Be alive and be well  
Take a drink to your health  
Not a shot with a gun to yourself  
Say goodbye to your hell  
Be alive and be well  
Take a drink to your health  
Not a shot with a gun to yourself
