

# Forgiveness

## Da' T.R.U.T.H.

It's all about Forgiveness  
You see the rain, it's in the sky  
You see the pain, it's in the eyes  
Just a man, prone to minimize  
At midnight, I hear a little bit of cries  
Love and hate is thinner line  
I see you swallow you pride to pretend its fine  
I wish I could have seen this ahead of time  
Then I could have avoided all the pain you feel inside  
Can't sleep, odd memories  
Crying out to God like, would it ever leave?  
Lord remember me, what's the remedy?  
I don't want to feel like I'm sleeping with the enemy  
Man, this whole this is bitter sweet  
I should forgive since Christ is forgiving me  
At least I know this in my head  
But it's so much easier said

They say forgiveness is a choice  
Disappointment and anger gives bitterness a voice  
But I got to swallow my pride and follow my God till I finish this course

Forgiveness is a choice  
Disappointment and anger gives bitterness a voice  
But I got to swallow my pride and follow my God till I finish this course

It takes time, the minute is pass  
You erase the lines, you finish last  
But you keep submitting to what is in the past  
Going through the same cycle, like a spinning class  
And I know it's a process  
Still trying to get pass what you pops did  
Now you feeling like a monster  
Explaining to counselor everything your mom said  
It cuts you, you can't sew  
God know everything you've been through  
How you been bruised, His is in tuned  
But forgiveness is the healing for them wounds  
So you got to let it go, let it go

It will kill you if you let it grow  
Un-forgiveness is a poison  
The choice is yours, I'm just a voice to let them know

They say forgiveness is a choice  
Disappointment and anger gives bitterness a voice  
But I got to swallow my pride and follow my God till I finish this course

Forgiveness is a choice  
Disappointment and anger gives bitterness a voice  
But I got to swallow my pride and follow my God till I finish this course

About last time he hit me, about ever let anyone do that to me again  
He preach one thing and live another, had the nerve to call me a hypocrite?

He said I was his favorite and this is how he shows he love me?  
After being married for ten years, the test resort came out positive  
She told me I was her only love, then I saw her with another man  
I thought she was my friend, how can she do this to me?

Forgive them never

You say I can't forgive, I can't forget  
They apologize you can't accept  
Demand respect, imagine that  
When every time you sinned, God cancel that  
And every time he's forgiving you  
Every time that you ate a piece of forbidden fruit  
I know you've been abuse, I aint in your shoes  
But I know if you let Him dig up the bitter roots  
Show them love, you will overcome  
Loving enemy is part of growing up  
Wanna hold a grudge, I know is tough  
But if Joseph the dreamer forgave his older bros?  
And Christ forgives, and died for sins  
And like to give life though we aint the right to live  
Then we should know how to wave our right to win  
Whether great or life end, you got to show love

They say forgiveness is a choice  
Disappointment and anger gives bitterness a voice  
But I got to swallow my pride and follow my God till I finish this course

Forgiveness is a choice  
Disappointment and anger gives bitterness a voice  
But I got to swallow my pride and follow my God till I finish this course
