

Gold Dust

BANNERS

Winter's calling
Night has fallen
Could you always come around?
Falling backwards
Sinking faster
Lost disaster on the ground Turn this darkness into sparks like blazing hearts
I tell you darling All I know
When the nights grow cold
And it's all gone to rust
We can turn it into gold dust
Far from home
With these aching bones
Are you just out of love?
We can turn it into gold dust Tired like a broken arrow
Straight and out of aiming careful and miss the mark
All I carry
Silver lining
Crashed like lightning flash in the dark Turn this darkness into sparks like blazing hearts
I tell you darling All I know
When the nights grow cold
And it's all gone to rust
We can turn it into gold dust
Far from home
With these aching bones
Are you just out of love?
We can turn it into gold dust Turn it into gold dust
Oh, turn it into gold dust
Oh, turn it into gold dust
Oh oh, turn it into gold dust
(Turn it into gold dust) All I know
When the nights grow cold
And it's all gone to rust
We can turn it into gold dust
