What good is it for a man to, gain the world Yet lose his own soul, in the process? God loves you, yes, He does

Said you're alright with Him, I wonderI know you never seen Him but don't fight with Him You're gonna make it through the night to the light with Him

You're alright with Him, said you're alright with HimI know you never seen Him but don't fight with Him You're gonna make it through the night to the light with Him

You're alright with Him, said you're alright with HimI'm callin' out to You Lord, because I need Your help See, once again I'm havin' difficulty savin' myself

Behavin' myself, You told me what to do and I do it

But every and now and then gets a little harder to go through itLosin' friends, day by day

I'm in so much pain when I'm here, Lord, please, take me away

I put you here to do a job and your work ain't done

To live is to suffer but you're still my sonAnd there will be a time when you shine as bright as the stars

But there won't be a his or hers, just ours

Then you'll see what I've been tryin' to show you all these years

Do the right thing 'cause after the tears, come the cheersI will, my Lord, with my heart and my soul

That's gonna be how I roll, from now until I'm old

Lead and I'll follow, You take away the sorrow

I'ma sleep on what You said and holla back tomorrowI know you never seen Him but don't fight with Him You're gonna make it through the night to the light with Him

You're alright with Him, said you're alright with HimI know you never seen Him but don't fight with Him

You're gonna make it through the night to the light with Him

You're alright with Him, said you're alright with HimI want You to know, Lord that for what You've given me I'm thankful

Sincerely, from the bottom of my heart, I'm grateful

You gave us power in our words, so I think before I speak

And that way when I speak, they know I'm here to teachCan't tell em nothin' wrong, 'cause I love 'em too much I reach a lot of people and Lord, I'm lovin' the touch

But deep inside, I've got somethin' that's workin' against

Everything I know is right, what I know makes senseThat's when you must fight harder than you've ever fought before

'Cause what you've got goin' on inside you is a war

Between good and evil, be careful of those who wanna be you

They smile but are not really happy when they see youBe careful of the ones that always wanna get you high 'Cause when the time comes that one'll let you die

Listen to me, I'm here but I can only help you

If you want me to help, what do you want for yourself? I know you never seen Him but don't fight with Him You're gonna make it through the night to the light with Him

You're alright with Him, said you're alright with HimI know you never seen Him but don't fight with Him
You're gonna make it through the night to the light with Him
You're alright with Him, said you're alright with HimMy Lord, my savior, don't judge my behavior
But instead, take what's in my heart and put it in my head
See, I guess I really never knew, how proud I made You
My life is Yours, my soul I gave YouI don't know if I'll do good enough
(He's by your side)

And we both know the hood is rough (Right by your side)Sometimes I don't know what to do

(X, dry your eyes)

But I know what I gotta do

(It'll be alright)You keep givin' me the word and I'll put it to song Talk to me, I'll talk to them and we can't go wrong

This is the start of somethin' strong and this is just the start of it

Praises to You my Lord, for lettin' me be a part of itI was that kid that, been there, did that Became ashamed so I hid that but ain't no longer with that

Use me as an example, if I can do it then they can too

With the Lord behind us, there ain't nothin' that we can't doI know you never seen Him but don't fight with Him You're gonna make it through the night to the light with Him

You're alright with Him, said you're alright with HimI know you never seen Him but don't fight with Him You're gonna make it through the night to the light with Him

You're alright with Him, said you're alright with HimHe's by your side, right by your side

X, dry your eyes 'cause it'll be alright Yeah, He's by your side, right by your side X, dry your eyes 'cause it's gonna be alright Yeah, yeah, yes, it is
