

# Birthday Boy

## Chicago

Birthday boy, blow out the candles  
Good friends around you, you should feel okay  
Don't look so sad and blue  
Don't act forsaken, this day's for you  
Good days are coming, my friend  
Life can be easy 'til the end Birthday boy, don't fear tomorrow  
Changes before you, years drift away  
You see life as pictures, frame to frame  
Many years wasted, what a shame  
Good days are coming, my friend  
Life can be easy 'til the end, 'til the end That empty feelin' won't go away  
Caught up in hurtin', day after day  
When will you see the joy in your life?  
It's there for you, it's there for you Don't look so sad and blue  
Don't act forsaken, this day's for you  
Good days are coming, once you stop runnin'  
Life could be easy, easy for you
