

Waste My Time

Saint Asonia

Hold onto me, like we're the only ones to see
The sky above us falling down
And breathe in my ear, like we're the only ones to hear
The mountains crashing down I have wasted most of my life
Playing games that I knew I'd lose
Let me sing to you just sit here don't move
I just wanna waste some time with you So take my hand, I don't understand
How they kept us apart for so long
And smile so I can see that is really you in front of me
'Cause that's still just so hard to believe I have wasted most of my life
Playing games that I knew I'd lose
Let me sing to you just sit here don't move
I just wanna waste some time with you Forcing back the tears
Over all the years
Boarding at the door
Throwing my hope to the floor
I could not forget
Now it all makes sense
That you're here with me
And I never, ever want to leave I would have wasted most of my life
Never even knowing you
Now you sing to me and I still don't believe
That you wanna waste some time with me
Let me sing to you just sit here don't move
I just wanna waste some time with you Now you sing to me
And I still don't believe
That you wanna waste your time with me
