When Am I Ever Gonna Settle Down

[Bobby Bare](#)

I've walked the streets of small Texas towns
I've seen the snowfall in New York
For a young man, I guess I've been around
But when am I ever gonna settle downI've seen Grand Canyon and the great Niagara Falls
Had chains on my legs in Wichita
Yeah for a young man I guess I've been around
But when am I ever gonna settle downI've known girls from Maine to Alabam'
I've loved the Cajun queens down in Louisian'
What will she be like when I reach that next town
Will that be the woman to make me settle downWell I loved me a Georgia peach
But she turned out wrong
She didn't move me, so I moved on
For a young man I guess I've been around
But when am I ever gonna settle down
