## Otem Rellik

Taught the ways of men since I was a child  
Watching brothers in the streets running wild  
They love a honey up then drop her back down  
I'm here to give you solid loving pound for pound, yea  
    Don't worry about thing baby  
    I'll always do you right  
    Don't worry about a thing baby  
    I'll tell you about it girl  
    Don't you know? You were always there for me  
    I could never let you free  
    Cross my heart that I can be strong  
    And devoted to you  
    Just 'cause I'm a man don't mean I'll let you down  
    You've been my pride and joy, you're heart's safe and sound, yea  
    When I had nothing you were right by my side  
    I came from rags to rich, now I'm living high, yea  
    Oh I still love it when we play all day  
    Looking at each other's eyes and find sweet things to say, yea  
    I understand a man who wants to fool around  
But if he knew what I knew about you I know he'd always be down  
    Don't worry about a thing, baby  
    I'll always treat you right  
    Hey hey yeah  
    Let me tell you girl  
    You were always there for me  
    I could never let you free  
    Cross my heart that I can be strong  
    And devoted to you  
    I said, you were always there for me  
    I could never let you free  
    Cross my heart that I can be strong  
    And devoted to you  
    Don't you worry about a thing  
    And I know that sounds so plain  
    'Cause I can tell you anything  
    To get me out of water  
    I know it's going to be rough sometimes  
    You never have to try to find another  
    You were always there for me

I could never let you free  
Cross my heart that I can be strong  
And devoted to you
