Over the Flows

Gojira

Over the flows
I take my time and
I search and turn around
Watching the stars
I want to dive in the sky
deep inside of me
Over the sky
I found a place I can be
there's no need to run
Follow my heart
I understand why and when
and what it's all about
Watching the signs
dancing all around
Over the flows
I find now a way
speak the words
already know
and now I learn
2x open the door
she said
