

# My Last Name

## Dierks Bentley

I learned how to write it  
When I first started school  
Some bully didn't like it,  
He said it didn't sound too cool  
So I had to hit him  
And all I said when the blood came  
It's my last nameGrandpa took it off to Europe  
To fight the Germans in the war  
It came back on some dog tags  
Nobody wears no more  
It's written on a headstone  
In the field where he was slain  
It's my last namePassed down from generations  
Too far back to trace  
I can see all my relations  
When I look into my face  
May never make it famous  
But I'll never bring it shame  
It's my last nameDaddy always told me far back as I recall  
Son, you're part of somethin',  
You represent us all  
So keep it how you got it, as solid as it came  
It's my last namePassed down from generations  
Too far back to trace  
I can see all my relations  
When I look into my face  
May never make it famous  
But I'll never bring it shame  
It's my last nameSo darlin' if you're wonderin'  
Why I've got you here tonight  
I want to be your husband, I want you to be my wife  
I ain't got much to give you  
But what I've got means everything  
It's my last name  
Oh, it's my last nameI learned how to write it  
When I first started school
