

# Above azure oceans

## Celestial Season

away from this planet  
onwards to a second earth  
the destination of this flight  
or is it a bad trip?hiding in the shadows of life  
and far away from the light of doom  
passing into surreality  
into a paradise never explored beforea part you are in the chain, the chain of angels  
that seek the night, the night skymiles, hours, lives away from hereabove azure oceans  
through landscapes of forgotten times  
in mountains of mist you fly, you fallyeah, my child you'll come back sometime  
oh my precious, you'll come back to me
