

Here We Are

drumfish

I was walking through the field today
Never thought to look away
I looked her right between the eyes I was dancing with one shoe on
Never thought that I would fall
There were many dazzles in the way (Chorus) Here we are
Right between the stars and her bizarre
Here we are
A thousand times to see before we fall I was looking to the back room
Seems she forgot to put her
Finger down before she went away I was suddenly afraid to stay
Even though she danced without her one shoe on (Chorus) (Chorus)
