What You Say

The Lightning Seeds

When I last saw you
You called my name out loud
If I'd have heard you, you know
I would have blown away those clouds

Say what you say
To get you through another day
Hold out those arms
Until you get to where you are

You talk of leaving
Without a thought of where to go
So your hearts bleeding again
You've got to let that river flow
Anywhere it goes, everything you see
Until they let you be

Say what you say
To get you through another day
Hold out those arms
Until you get to where you are

Find a place that you're gonna feel
Everything about you is for real

Say what you say
To get you through another day
Hold out those arms
Until you get to where you are
