

# What You Say

## The Lightning Seeds

When I last saw you  
You called my name out loud  
If I'd have heard you, you know  
I would have blown away those clouds

Say what you say  
To get you through another day  
Hold out those arms  
Until you get to where you are

You talk of leaving  
Without a thought of where to go  
So your hearts bleeding again  
You've got to let that river flow  
Anywhere it goes, everything you see  
Until they let you be

Say what you say  
To get you through another day  
Hold out those arms  
Until you get to where you are

Find a place that you're gonna feel  
Everything about you is for real

Say what you say  
To get you through another day  
Hold out those arms  
Until you get to where you are
