Our Worlds Collide

BarlowGirl

Tonight the stars are dancing to the song the angels sing
I hear Your whisper on the breeze
And every sound echoes the rhythm of Your heart
As I begin to fade into this lovely night, I'm alive'Cause our worlds collide
I'm lost in time, heaven kisses me tonight
Your heart with mine, it beats in time
Now I know why I am aliveNow that I've found You, I could never let You go away
You've left my life never the same
Sing over me and let me hear the words You wrote for me
Whisper the words that set my spirit free, sing to me'Cause our worlds collide
I'm lost in time, heaven kisses me tonight
Your heart with mine, it beats in time
Now I know why I am alive
