

Ray Of Hope (bonus track)

[Jon Anderson](#)

A Ray of Light appears
And tells me someone's there
A Ray of Hope
As if God's lighting the lamp for me.
A friendly hand takes mine
And leads me to the light
A blazing light
Beseeching me to see
A new dawn is beginning
A dawn of revelation
Dawn of illumination
To warm the heart and soul
One ray of light - that's all
But oh, the joy it brings.
A shining friend,
That's telling us that we'll all meet again
Imagine
Life after life - the dream
We never dare to dream
Is ours tonight
A new age is born
From one Ray of Light There'll always be some things
Wise men will never know
Why doesn't God take all the hunger and fear away?
I'm certain
There is a greater plan,
Some Heavenly design
Where everyone finds love one day
There has to be a reason
For heart ache and despair
And once we find that reason
It's something we can share
One Ray of Light, that's all
But oh, the joy it brings.
A shining friend,
That's telling us that we'll all meet again.
Imagine
Life after life - the dream
We never dare to dream

Is ours tonight
A new age is born
From one Ray of Light
