Trick Bag

Alice Cooper

Tie you up baby, really tight
In a lover's knot
I'm in the mood for my leather boots
With the leopard spots
Take you down to my side of town
Where I learned to love
I'll strap you down, honey
Pet you nice with my velvet glove
You dial my number so let me take the lead
I'm the man, understand
With the smooth slight of hand
And all the magic you need
T-t-trick bag, sit back and just enjoy the show
Burn you with desire
Trick bag, come on and let your body go
Gonna lay it on thick so the memory'll stick
Chew me up with your perfect mouth
Don't you spit me out, yeah
I'll teach you good, little Miss Hollywood
What it's all about
You call me up baby, in the middle of the night
You say you're sweating red
And you're dripping on the bed
Tripping in the moonlight
T-t-trick bag, sit back and just enjoy the show
Burn you with a fire
Trick bag, come on and let your body go
Gonna lay it on thick so the memory'll stick, yeah
[Incomprehensible]You call me up baby, in the middle of the night
You say you're sweating red
And you're dripping on your bed
Tripping in the moonlight
Trick bag, sit back and just enjoy the show
T-t-trick bag, come on and let your body go
I'm gonna make it stick
Trick bag, sit back and just enjoy the show, woah
Trick bag, come on and let your body go
Get it out, my hands are quick
Trick bag, sit back and just enjoy the show, woah

Trick bag, come on and let your body go
Trick bag, trick bag, trick bag, trick bag, trick bag
