

Pink Tea

Alien Ant Farm

Our bright days make Sundays
And tea time is always
In short time with sunlight
Were gonna wait To drink a cup of lots of love
Would hopefully erase all the doubt
And you would be mine dear
And I will drink and only Spring is here and were in full swing
Spring is here and were in full swing Now clouds pour thick showers
And wash way droughts powers
So crops thrive twelve feet high
Theyre potent and get me high So we stir and we stir
And mix a drink of leaves so pure
Three cubes of cane represent
Our short but sweet relations Spring is here and were in full swing
Spring is here and were in full swing
