

# Time Is Not

[Laura Gibson](#)

I've been careless with my questions  
For my burden is like a halo  
Held my hopes like broken wings  
Traded peaceful backward glances  
Babe you're the one who called that spiders  
For time is not against us  
Time is not against us Red is the fox in the white of winter  
All in the baby is in to battle  
Cutting my knees on the raised wired  
Just too bared in the river of desire  
Babe I'm lately drawn to fire  
Time is not against us  
Time is not against us  
Oh we've been lightening the trail we chose  
Oh With nothing more than a match  
Pouring strenght that enrich the spirits  
Taking a torch to every shadow  
Babe you were right about tomorrow  
For time is not against us  
Time is not against us  
Time is not against us  
Time is not against us
