

Don't Wait for the Sun

American Hi-Fi

I don't need to know why
'Cause tomorrow I'll be fine
I should learn to be still
If I close my eyes
I'll realize what you meant Don't wait for the sun
It could turn black any day
I lost my hat in the clouds
When will this haze go away?
I never wanted this Now it's all I've got
Someone else is keeping time
I think I'm falling apart
If you were me
Would you do it like I do? Don't wait for the sun
It could turn black any day
I lost my hat in the clouds
When will this haze go away?
I never wanted this Don't wait for the sun
It could turn black any day
I lost my hat in the clouds
When will this haze go away?
I never wanted this So don't wait for the sun
Don't wait for the sun
Don't wait for the sun
'Cause it could turn black any day You're all that I wanted
