# Good As New

## The Fire Still Burns

I had a broken watch on a broken chain
I had a rood that leaked every time it rained
I had an old guitar that wouldnt stay in tune
But now it sounds just fine since Ive met you
Im good as newI had some crazy thoughts runnin through my brain
Wonderin if my life was goin down the drain
I had a broken heart, broken right in two
But now its in one piece since Ive met you
Im good as newYou Made my life like a lullaby
You put the spark back into my eyes
You put the shine in the shining sea
And you hung the moon where it should beNow my old yard is looking nice and green
And my old car, well, its a clean machine
Even my old dog, she can feel it too
Its not the same old thing since Ive met you
Im good as newSince Ive met you
Well, Im good as new
Since Ive met you
Im good as new
