Stay

The Fold

You put a vision in me
A passion so strong
That it beckons me still
Calling me desperately, stayOh, what do I know?
Youre rendering beauty
From what I dispose
Characteristically so buoyantly
Vitally barely aliveAll that remains
From off in another direction
Is calling me still, stayStay, where you are
Time will pass as they fall away
Its a shame to come so far
Just to watch it all slip awayIf you wanna stay, where you are
Time will pass as they fall away
Its a shame to come so far
Just to watch it all fade away
As you fade awayOh, what do I know?
Youre rendering beauty
From what I destroyed
Characteristically so buoyantly
Vitally, barely aliveAll that remains
From off in another direction
Is calling me still, stay
