

Where U R

Reaction 7

Its been so long
I'm trying to remember you
Just how it was with us
So very long ago You went to college and I went to war
You never wrote back and I never heard more
I saw your old girlfriend yesterday
She only told me that you moved away And now I wonder, wonder, where you are right now Its been so long
I can't get over you
All the special things we did
So very long ago You went to college and I went to war
You never wrote back and I never heard more
I saw your old girlfriend yesterday
She only told me that you moved away And now I wonder, wonder, where you are right now I still wonder where
you are I still wonder where you are
