Eyes of the Muse

King Tuff

Comin' at midnight
Into my window
Follow me always
Wherever I go

Diamonds and dynamite in my mind
Shine electrified in the light
Higher than mountains out that came true
Lived among the eyes of the muse

There is no other
When I am with her
I'll always luv ya
I'll always miss her

Diamonds and dynamite in my mind
Shine electrified in the light
Higher than mountains out that came true
Lived among the eyes of the muse

My, my, not gonna sleep tonight
Taking picture in the candle light
You won't see me tonight
But tonight, my love, you die by my side

Diamonds and dynamite in my mind
Shine electrified in the light
Higher than mountains out that came true
Lived among the eyes of the muse
