

# Eyes of the Muse

## King Tuff

Comin' at midnight  
Into my window  
Follow me always  
Wherever I go

Diamonds and dynamite in my mind  
Shine electrified in the light  
Higher than mountains out that came true  
Lived among the eyes of the muse

There is no other  
When I am with her  
I'll always luv ya  
I'll always miss her

Diamonds and dynamite in my mind  
Shine electrified in the light  
Higher than mountains out that came true  
Lived among the eyes of the muse

My, my, not gonna sleep tonight  
Taking picture in the candle light  
You won't see me tonight  
But tonight, my love, you die by my side

Diamonds and dynamite in my mind  
Shine electrified in the light  
Higher than mountains out that came true  
Lived among the eyes of the muse
