Wide Eyed

Cheers Elephant

Deep inside the fence, in your documents. All into fall into fingers.
It wont hurt but it'll tingle a bit.
All the things you're soon to be, once but not believed, believe me when things they are changing. it'll all be fragrant to you.

She is, into the open air look at her floating there, wide eyed
bringing her down to see what she has come to be, one of the only and few
all eyes on you. my Arabian man
do what you do, and you do what you can

Feel and fantasize, focus with your eyes. take in all that's around you.
and it's all to astound you. a bit
move until you're tired, until your feet acquired that solid ground does not bound you. you are what's around you. a bit

You are floating up but sinking as you lye there thinking, wide eyed
give a little credit to us all, we've been hanging off the wall and we're up out to dry.
Oh it's arrived, the alarm. oh we survived, but it's gone.

Oh it is done, we have evolved.
bring out the sun, and revolve
