

# Rain

## Vincent Liou

You are why I prefer beds made of Venus flytraps  
There's nothing behind my eyes behind bone-dry lakesLet's fall asleep to the rain  
Cause girl I want you to stay  
Now I'll never know how many  
Lines are on your perfect faceI wanna eat you up like a pomegranate  
My nights are getting longer and  
I'm so over itLet's fall asleep to the rain  
Cause girl I want you to stay  
Now I'll never know how many  
Lines are on your perfect faceLet's fall asleep to the rain  
Cause girl I want you to stay  
Now I'll never know how many  
Lines are on your perfect faceLet's fall asleep to the rain  
Cause girl I want you to stay  
Now I'll never know how many  
Lines are on your perfect face
