

# Time Travellers (Single Version)

## Riverside

One day we'll find our way  
Straying from the road  
We thought we could go  
Until we would fade.  
Traveling across the fallen earth  
And the foreign lands  
We survived  
To believe that this is not the end  
This is not the time  
Moving unseen beyond  
The shadows  
Waiting for  
The birth of a star we can follow  
One day we'll find our time  
Come to realize  
That our history  
Came full circle  
Traveling across all the dried up seas  
And the foreign lands  
We survived  
To believe that this is not the end  
This is not the time  
We crane our necks for youth  
We know we'll make it through  
And we can go back to the forest  
Let's go back to the world  
That was 30 years ago  
And let's believe this is our time
