

# That Girl Possessed

[Alexisonfire](#)

We won't forget that girl possessed  
We won't forget that girl possessed, possessed  
Who knew her legacy would destroy her future?  
You had such promise before your rape  
You had such promise before your rape  
Born innocent but something had to give  
Exploitation, erotica and horror, even a spread in Oui magazine  
And then your habit of getting caught, what a frightful night  
Born innocent but something had to give  
We won't, we won't, we won't, we won't forget you  
What a frightful night  
We won't, we won't, we won't, we won't, forget you  
What a frightful night  
You painted a picture so graphic

That no one could, they can't see past it  
You painted a picture so graphic  
That no one could, they can't see past it  
We won't, we won't, we won't, we won't forget you  
What a frightful night  
We won't, we won't, we won't, we won't forget you  
What a frightful night  
We won't, we won't forget you  
What a frightful night  
We won't, we won't forget you  
What a frightful night  
We won't forget that girl possessed  
We won't forget that girl possessed, possessed
