

Something

Butthole Surfers

Something she said to me last night
Something she said to me
I saw the sun rising up over my daddy's grave
And I ate some cheese and rice todaySomething she said to me last night
Something she said to me
She been talking, talking behind my back
This time she's gonna bleedYou talking to me? [x7]Something she said to me last night
Something she said to me
I saw the sun rising up over my daddy's grave
And I ate some cheese and rice todaySomething she said to me last night
Something she said to me
She been talking behind my back again
This time she's going to bleedaaaohhhwww!Something she said to me last night
Something she said to me last night
Cuz when I kicked her in the teeth she was out the door
I just know she'll be back for more
