The River

Cindy Morgan

Oh meet me down by the river
Lets dive in like children do
Let our troubles wash to the Father
He'll wash you clean and make you newOh my brother i know your out there
With all your burdens and heaven lose
Oh you've been driving down this highway
For so long for so longOh my sister I know you cryin'
Cos you feel lost and on your own
But when your empty Jesus can fill you
All that He asks is you come homeSo meet me down by the river
And lets dive in like children do
And let troubles wash the father
He'll wash you clean and make you newFather my love
Saddened daughter
Were all searching for that peace
That can hear less and reason to us
The sweet forgiveness
We all need we all needCome on meet me down by the river
Lets dive in like children do, children do, children do
And let our trouble wash to the Father
Wash ya clean and make you new
He'll wash you clean and make you new
