

# Rush

## William Singe

[Verse 1]

I said it was the last time  
Last time, last night, glassed eyes  
Sweet, sweet vice  
Would you baptize  
My mind just one more time[Pre-Chorus]  
Can you take me there tonight?  
Show me a light  
Take me up to paradise  
Come bring me back to life[Chorus]  
It's just a little rush  
I'm coming up every time we touch  
It's just a little rush  
It's like everything I do depends on you  
I need your blessing (I can't let it go, no)  
Can't leave you alone (it's you I been on so)  
It's just a little rush

It's like everything I do depends on you[Verse 2]  
I'm having conversations with angels, dreamers, and demons

I'm just tryna catch a ride to the city  
Backseat to another man's vision[Pre-Chorus]  
Can you take me there tonight?  
Show me a light  
Take me up to paradise  
Come bring me back to life[Chorus]  
It's just a little rush  
I'm coming up every time we touch  
It's just a little rush  
It's like everything I do depends on you  
I need your blessing (I can't let it go, no)  
Can't leave you alone (it's you I been on so)  
It's just a little rush  
It's like everything I do depends on you[Bridge]  
I just can't sleep so  
I been on you  
Watching your leaves fall down  
I just can't breathe til'  
I'm around you  
How hard can it be?

Oh, tell me[Chorus]  
It's just a little rush  
I'm coming up every time we touch  
It's just a little rush (just a little rush baby)  
It's like everything I do depends on you  
I need your blessing (I can't let it go, no, no)  
Can't leave you alone (it's you I been on, you)  
It's just a little rush  
It's like everything I do depends on you[Outro]  
Depends on you babe  
Said it depends on you baby  
Depends on you  
Depends on you baby
