

# Let's Be Friends

## Elvis Presley

Don't be afraid, you and I were made the same little one  
And I know what it's like when you feel left out of the game little one  
    But if you take this helping hand that I lift  
    Then we can smile together, let's be friends  
The world that you see may seem to be a mystery to you  
The night may be dark but hope very hard and dreams can come true  
    You live in silence but for once let's pretend  
    We're talking here together, let's be friends  
You're not alone, I've always known that we'd get along  
And someone I know says life is good and He can't be wrong  
    There's fun and laughter just waiting round the bend  
    Let's find them now together, let's be friends  
    Let's find them now together, let's be friends
