

Thank You

HELLYEAH

So many things, I didn't say
Is it too late
Now that you've gone away
So many words, so many ways
If you can hear me now
There's something I've gotta sayJust one more talk
Just one more touch
Just once too much, thenI just wanna say
Thank you, for everything
You've ever done for me
(Done for me)
I just wanna say
Thank you, for all the things
For saving me
(Saving me)
So many times, so many days
You helped me through
Walked me through the rain
So many tears, have washed away
If you can hear my voice
There's something I have to sayJust one more talk
Just one more touch
Just once too much, thenI just wanna say
Thank you, for everything
You've ever done for me
(Done for me)
I just wanna say
Thank you, for all the things
For saving me
(Saving me)
It's been so long
They say time will heal everything
Could you send me a sign
To fill this whole in my lifeTurn on a light
To help me see through it all
Noone left to rescue me
Save me!-Solo-Just one more talk
Just one more touch
Just once too much, thenI just wanna say

Thank you, for everything
You've ever done for me
(Done for me)
I just wanna say
Thank you, for all the things
For saving me
(Saving me)I just wanna say
Thank you, mother
Thank you, father
Thank you, sister
(Saving me)
I just wanna say
Thank you, brother
Thank you, daughter
All my best friends
