

Fresh

Devo

Something in the air
Is telling me to go there
So I'll follow my nose
Go wherever it goes It's calling from around the corner
Waiting just outside of town
Trailing vapors sweet and tangy
Daring me to track it down It's blanketing the high-rise towers
Blasting through the sands of time
It's useless to resist its power
It's now or never So fresh
I'll search until I find it
So fresh
I'm closing in behind it So fresh
Nothing could be better
So fresh
Like I died and went to heaven So fresh it almost makes me want to cry
So fresh it's giving me a second life I see a fork in the road
Where it goes, I don't know
I won't even think twice
I really don't have a choice It's calling from around the corner
Waiting just outside of town
Trailing vapors sweet and tangy
Daring me to track it down It's blanketing the high-rise towers
Blasting through the sands of time
It's useless to resist its power
It's now or never So fresh
I'll search until I find it
So fresh
I'm closing in behind it So fresh
Nothing could be better
So fresh
Like I died and went to heaven So fresh
So fresh
So fresh
So fresh So fresh it almost makes me want to cry
So fresh it's giving me a second life
So fresh it almost makes me want to cry
So fresh it's giving me a second life So fresh
