Overtake You

Red

Time, it's eating me alive
Unable to rewind
Sink deeper while I'm climbing
Never to arriveI gave you everything
But still you need to feed
And underneath it all I'm screaming outJust carry on, just prove me wrong
I know that I'm dying right now
And it seems that I'm so far gone
But not for long
I'll just be strong and keep knowing
That now I will overtake youJust one that you can use
One risk but you can't lose
Play the victim while abusing
Anyone you choosePainful consequence
Of standing on your lies
I'm barely breathing
But I'm screaming outJust carry on, just prove me wrong
I know that I'm dying right now
And it seems that I'm so far gone
But not for long
I'll just be strong and keep knowing
That now I will overtake youI know that I'm dying right now
And it seems that I'm so far gone
(Overtake you)
I'll just be strong and keep knowing
That now I will overtakeYou'll come to get me
But you'll end up dead
You'll come to get me
But you'll end up deadYou'll come to get me
But you'll end up dead
You'll come to get me
But you'll end up deadJust carry on, just prove me wrong
I know that I'm dying right now
And it seems that I'm so far gone
But not for long
I'll just be strong and keep knowing
That now I will overtake youYou'll come to get me
But you'll end up dead
You'll come to get me

But you'll end up dead
(Overtake you)You'll come to get me
But you'll end up dead
(Overtake you, overtake you)
You'll come to get me
(Overtake you)
You'll come to get me
