

My Name Is Allen

Stone Sour

Hope I'm not hopeless
Gathering focus
I have no pity for a prison that died Don't even say it
Consider the source again
Your indecision let me make up my mind The normally vacant
Will make you contagious
What does it matter when the human is gone Before you bother
I knew I'd mastered this
So take your time
'Cause I know what went wrong There's only room in here for one
And I've decided it's not you
I had to do what must be done
You would have done it too Suddenly I'm feeling strange
I know you want it
Tell me you will never change
I know you wanted to Nobody's out there
You're getting us nowhere
I just remember why I put you through Hell You might be different
But I didn't ask for this
You know you're crazy when you're talking to yourself There's only room in here for one
And I've decided it's not you
I had to do what must be done
You would have done it too Suddenly I'm feeling strange
I know you want it
Tell me you will never change
I know you wanted to
I know you wanted to
I know you wanted to
I know you wanted to Why delay or complicate?
The gravity of my persuasion
Look into that part of you
I am you without hesitation (Solo: Jim) There's only room in here for one
And I've decided it's not you
I had to do what must be done
You would have done it too Suddenly I'm feeling strange
I know you want it
Tell me you will never change
I know you wanted to
I know you wanted to

I know you wanted to
I know you wanted to...Ha ha ha ha
