

Flight

Sellorekt/LA Dreams

You

Eh why you looking at me

You got something to hide

I got something to see

Stay

Right where you stand

And then when I say go

You gonna take what you can

Look at the things you've done

At the things you've done

At the things that you've done

We're on fire

Stand and fight

We could be in flight

You

You mean nothing to me

Can I feed you a lie

For a pledge to be free

Take

And then make what you can

Quit choosing a side

Stay right where you stand

Wait before you let it go on

Before you let it go on

Before you let it go on

We're on fire

Stand and fight

We could be in flight

We'll burn it down...

We're on fire

Stand and fight

We could be in flight

Lost and tired

Read our rights

We could be in flight
