

Finder of Lost Loves (with Glenn Jones)

Dionne Warwick

Finder of Lost Love
It's never too late to find love
Put the past behind you
Keep your heart open And love will find you
It's never too late for love to call
'Cause when your heart is open
It's not too late at all The world still turns
And my life goes on
Everyday I tell myself
You really aren't gone If I had it to do all over
It would still be you all over
'Cause I have learned
'Cause I had the best
There was you and now there's all the rest Finder of Lost Love
It's never to late to find love
Put the past behind you
Keep your heart open And love will find you
(Oh, yeah)
It's never too late for love to call
'Cause when your heart is open
(When you open up your heart) Oh, to live each day
Remembering
Gotta know (gotta know) that love will come again
(That love will come again) Keep your heart open
Someone's gonna find you
It's never too late for love to call
(Never never)
'Cause when your heart is open
(Keep your heart open)
And you'll find love You'll find it, you'll find it
(Yes you will)
It's never to late to find love to call
(No, no, no, no, never no, no, no, no, never no, no, no, no, never)
'Cause when your heart is open
(Open up your heart)
And you'll find love It's never too late for love to call
(Never never)
'Cause when your heart is open
(Keep your heart open)

And you'll find loveIt's never to late for love to call
(No, no, no, no, never no, no, no, no, never no, no, no, never)
'Cause when your heart is open
