

# Plague Years

Tad

And you better leave me alone  
and you better get away  
Better lick my wounds  
It'll help you to die someday And you better get me a shot  
And you better say your spells  
and you better get me a lot  
and you better not ever tell But you can't ever escape my voice  
And you can't ever escape your choice  
you can't never escape the payback  
'cause you know there aint no way back  
back  
no way back better avoid me like the plague  
better lock me out once more  
better not get in my way  
better hide behind your door  
And you better get me a shot  
And you better say your spells  
and you better give me a lot  
and you better not ever tell  
But you can't never escape my voice  
And you can't never escape your choice  
you can't never escape the payback  
cause you know there ain't no way backback  
no way back
