The Consultation

Ayreon

[Psychiatrist:]
I know it's hard to find the words
But tell me all about your world
Do you struggle to adapt?
Do you feel detached?[Prodigy:]
It seems I'm always out of place
Like some alien machine
I never know how I should be
Or what to feel, or what is real[Mother:]
Can you help us reach our son?
Can we put our faith in you?
Can you help him overcome?
There is brilliance shining through
Do you see it too?[Psychiatrist:]
Let's talk about your dreams
Can you tell me what you see?
Can you describe the way you feel?
Do you feel anything at all...[Prodigy:]
I see things that don't belong
In this four-dimensional world
There is so much more beyond
More to unveil, more to reveal[Mother:]
Can you help us reach our son?
Can we put our faith in you?
Can you help him overcome
There is magic shining throughCan you help us reach our son?[Prodigy:]
I, I need a future I can build
[Mother:]
Can you tell us what to do?[Prodigy:]
Give me a role that I can fulfil[Mother:]
Can we help him rise above?[Prodigy:]
I know I've got something to give[Mother and Prodigy:]
A reason to live!
