

Another Case

Uh Huh Her

im better than the other one
youre a harder chase
youre fast against mine
ill beat it, youre the weaker one
thats another case
ill taste the last line
i will take you to the other side
i will set you up
youre fast against mine
i will tear you from the other one
its a bitter race
youre frail i am stronger than the other ones
i will set them off
dont try to fight me
i will break you either way it seems
its a testimony
to how this will end ill stop it when ive finally won
ill take you down somehow
i will stay till im the only one
thats another case
you failed and you feel youve lost it
and you know you lost it
