

Cloud 9

Jamiroquai

You pick me up, then you put me down
Can't seem to find my way around ya
See what you think, when you don't think it now
You lost my love but someone found it
Now when the rain falls upon my head
I don't think of you that much at all
Just one thing seemed to make you care
Who's gonna drive and take you home? Only a fool could walk away from me this time
I look up to heaven, every star I see is mine
Only a fool could walk away from me this time
I'm walking on air, and every cloud is cloud 9 You get your kicks playing stupid tricks
But I've found another crush
You got me now
Game, set and match, don't seem to be no catch
I don't think she'll drive me to the wall
We go out at night, and the world starts feeling right
She don't care about Hollywood
I know you don't believe it, but this time I really mean it
I hope it's clearly understood Only a fool could walk away from me this time
I look up to heaven, every star I see is mine
Only a fool could walk away from me this time
I'm walking on air, and every cloud is cloud 9 I'm not the one, the one for you
Can't change it, baby
I'm not the one, the one for you
I know it, baby
I'm not the one, the one for you
Can't change it, baby
I'm not the one, the one for you Only a fool could walk away from me this time, yeah
I'm not the one, the one for you
I look up to heaven, every star I see is mine
I'm not the one, the one for you
Only a fool could walk away from me this time
I'm walking on air, and every cloud is cloud 9
