Fight the Feeling

MOTHXR

Visiting from inside you
You're not alone
I come eyes open
She forces you to
I never know itPut it up beside you, I could
Put it up beside you
Say it if you want to
Cause I want you toFight the feeling
I wanna work for it
Fight this feeling
I wanna work for it (repeat)We're only on the surface
I'm listening
All the other noises
She waits for me to
I'll never show itPut it up beside you, I could
Put it up beside you
Say it if you want to(Chorus repeat)
