

# Could Be Anything

Lumidee

It just started like  
Got you up in my system and I'm feeling right  
Never was my type  
But you snuck up on me and I just took flight  
All the chicks is tight  
Keep ya eyes on me for the whole damn night  
I could be your miss, you could be my man  
Walking through the hood hand in hand  
Queen of Spanish Harlem, hope you understand  
Baby, it's a plus, just keep me in ya plans  
It's whatever ya like  
What you say is wrong so believe that it's right  
Baby, could be anything you want it to be  
'Cause it seems that you got all that I need  
'Cause I buy no limits, no, so as far as we can go  
'Cause I'm feeling you fo' sho  
It could be anything  
It could be anything  
It could be anything  
I'm into ya mood, ready to move  
In like a chick, got something to prove  
Nothing to lose, baby, I'm a winner  
I might play it off but I ain't no beginner  
I know you like my style  
Brushed you off a little, yeah, I know that's foul  
I ain't putting up a fight  
I'm waiting on you 'cause it all sounds right  
If I'm coming on strong I'll tone it down  
Baby, I'm the type that'll hold the ground  
Playing catching catch for a real long while  
Let's go right now  
Baby, could be anything you want it to be  
'Cause it seems that you got all that I need  
'Cause I buy no limits, no, so as far as we can go  
'Cause I'm feeling you fo' sho  
It could be anything  
It could be anything  
It could be anything  
It just started like, uh, uh

It just started like, yeah, yeah  
It just started like  
Got you up in my system and I'm feeling right, uh  
It just started like, uh, uh  
It just started like, yeah, yeah  
It just started like  
Got you up in my system and I'm feeling right, uh  
Baby, could be anything you want it to be  
'Cause it seems that you got all that I need  
'Cause I buy no limits, no, so as far as we can go  
'Cause I'm feeling you fo' sho  
It just started like, uh, uh  
It just started like, yeah, yeah  
It just started like  
Got you up in my system and I'm feeling right, uh  
It just started like, uh, uh  
It just started like, yeah, yeah  
It just started like  
Got you up in my system and I'm feeling right, uh
