Five Against the World

Story of the Year

I never thought I'd see the day

That we honestly could say

We stand five against the world

And the doors are openThrough all those years

I would've died to be right here

I never thought of backing down

With one chance to make a sound

So we'll take our chance right nowThese are the days we will remember

(These are the days we will remember)

And these are the days we won't forget

(These are the days we won't forget) These are the times we've shared

These are the promises we've made

These are the daysRevolution dead and gone

Still integrity holds strong

We stand five against the odds

And rise through it allRelentless form and dedication carried on

We stand tall and won't back down

With one chance to make a sound

So we'll take our chance right nowThese are the days we will remember

(These are the days we will remember)

And these are the days we won't forget

(These are the days we won't forget) These are the times we've shared

These are the promises we've made

These are the days that we won't forgetYeah, we carry on convictions

Learning as we go

Living out the only life we knowThese are the days we will remember

(These are the days we will remember)

And these are the days we won't forget

(These are the days we won't forget) These are the times we've shared

These are the promises we've made

These are the days we won't forgetWe won't forget, we won't forget
